

A RECORD 82.4 MILLION
PERSONS ARE DISPLACED
GLOBALLY (UN).

THE 2018 GLOBAL COMPACT ON
REFUGEES AND 2016 WORLD
HUMANITARIAN SUMMIT CALL FOR
MORE EFFECTIVE AID AND SUPPORT
FOR LOCAL ACTORS.

About Us

Refugee Protection
International offers a
scalable, locally-driven
model of humanitarian
aid for refugees and
internally displaced
persons (IDPs).

OUR GRASSROOTS PARTNERS:

UKRAINE & SYRIA CRISIS RELIEF

ENABLING DIGNITY
IN DISPLACEMENT
WITH REFUGEE-LED
PARTNERS ON THE
FRONT LINES

Our Model Sets Us Apart

We amplify humanitarian impact by:

1) promoting and partnering with remarkable refugee-led nonprofits on the front lines of war; 2) strengthening project design to bridge silos and spur public-private-civil society partnerships; and 3) allocating 92% of expenses to project grants and program support.

Supportive of local capacity. Strong on design. Light on overhead.

What We Do

We deliver aid and support our refugee-led & grassroots partners with: project design, grants, monitoring, and technical support, as needed, to carry out essential activities in 3 program areas:

Protection & Self-Reliance

- Evacuate civilians from war zones
- Facilitate refugee access to documents to legitimize stay and access work and basic services
- Support female job readiness and incentivize employer demand
- Secure transitional social aid and specialized protection services

Education & Health

- Conduct regulated non-formal education for children and youth
- Rehabilitate and stock hospitals and mobile clinics in areas of violence
- Provide health care, screenings, awareness, case management, and medical expense coverage

Shelter

- Secure rent-free or subsidized urban shelter for the most vulnerable
- Repair war-damaged housing to accommodate IDPs
- Distribute shelter materials and fuel for heating and cooking

Our joint project designs empower the most vulnerable by integrating both a gender and rights-based urban lens.

Our Vision & Joint Impact

It is our vision that refugee-led partners more readily access funding and projects better meet the self-reliance needs of urban refugees and IDPs.

Since our founding in late 2015, refugee-led projects have aided 404,262 conflict-affected civilians in Syria, Lebanon, Turkey, Romania, and Ukraine.

Moving beyond handouts.
